👍 Why UR FOG fogging security system?

UR FOG has a proprietary technology that grants an extraordinary protection as well as many other peculiarities that make your fogging system the safest and most secure.

"It is impossible to steal what is impossible to see" This sentence is the perfect caption to describe UR Fog features as after few seconds from the ejection you will not be able to see anything.

UR FOG fogging systems are innovative in their technology and performances, to guarantee the most effective protection against thefts and they have different patents.

An alarm system can just inform you about a theft but not prevent it. Burglars need less than 3 minutes to make a crime, usually they know exactly where to go and what to take, while the police need at least 10-15 minutes to arrive. That's why you need a fogging system to protect your properties in just some seconds.

⚠ Active Safety fog warning machine

UR FOG is an incredible technology, which is best suited and specifically designed for intrusion security which immediately repels the intruder. It is the only proactive security device, which performs a crime prevention function during an intrusion.

🛡 Suitable Security Solution

- Jewelries / Electronic Shops / Super Markets
- Petrol Stations.
- Gun Stores / Drugstores / Gambling Machines.
- Security Companies / Cash in Transit / Value Transports.
- Warehouses / Garages / Homes.
- ATM / Safe Rooms / Depositories / Cash Counter / IT Server Rooms.

eurofins

UR FOG fogging systems are certified after European regulations. Fog fluid is assessed as not dangerous for people and animals and does not leave residuals.

FAST FOG — The fastest and most powerful machines shooting up to 300 m3 in 1 shot.

HIGH DENSITY FOG — The most dense fog among fogging systems thanks to 80% glycol in its fog fluid and the proprietary shooting technology based on Fog Recharge.

DOUBLE CYLINDER TECHNOLOGY — Fog Recharge are the best solution to shoot fog, very easy to change as they do not need to be recharged, they have a very competitive price.

LOW ENERGY — Thanks to the massive insulation UR FOG fogging systems have a very low power consumption and can shoot for longer time in absence of main power, temperature is stable all the time.

OCCLUSION AUTOMATIC MONITORING / NOZZLE TAMPER — Another exclusive, patented and very useful plus that allows to detect automatically if the nozzle is tampered and tries to shoot out anything that stops the nozzle, besides sending an advise signal.

SMART BUS STANDARD PROTOCOL — A unique serial bus to plug on the electronic board an add on board that allows to make easily interface cards for direct connections with alarms and to allow the full control of the machine even from remote, it has a standard protocol for all machines.

PATENTED — The UR FOG Fog Cannons are cutting edge and innovative as technology and performance to offer the best possible protection against theft and are protected by numerous patents.

SECURE AND CERTIFIED — The UR FOG Fog Cannons have been certified and tested to ensure maximum safety and reliability. The mist leaves no residue and is certified to be nonhazardous to humans and animals.
